# *Cumulative Subject index*

## *Volume 17, 1998*

(Numbers refer to abstracts and not to pages)

This is a modified keyword index. Abstracts are indexed under significant terms taken from either the title or from the abstract itself. These may be single words (e.g. race) or phrases (e.g. academic achievement). Proper names are also indexed (e.g. Wechsler Intelligence Scale for Children—WISC). Correct use of the index requires that you be mindful of synonyms and related terms (e.g. multicultural education, intercultural education), of variant forms of the same word (e.g. delinquent, delinquency), and of variant spellings (e.g. behavior, behaviour).
